60.		<p>A1276659 Liam is a DSH orange tabby male who is incredibly scared in his current surroundings. He is very guarded and will hiss at you initially. It seems like he wants to trust because he will relax if you talk to him in a calm soothing voice (a jazz fan perhaps). I remain optimistic that Liam will become a playful, energetic kitten if given the time and space and love to grow. It is little guys like Liam who need our protection and rescue most. Note: Liam will be neutered, microchipped and be current on his shots (including rabies).</p>
